PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8806 SESSION NUMBER: 1
DATE OF SESSION: 16 FEB 88 DATE OF REPORT: 17 FEB 88
START: 1424 END: 1325
METHODOLOGY: CRV VIEWER IDENTIFIER: 095

1. (S/NF/SK) MISSION: See tasking data sheet, attached.
2. (S/NF/SK) VIEWER TASKING: The entire session was conducted utilizing Stage 6 tools in conjunction with a map of Lebanon (supplied). The session was conducted in four parts:
 - 1) Using the horse racing track (335245N/353045E) as a reference point, 003 determined the direction to Terry Waite-present location. (see diagram p.2). 095 perceived the location to be in a generally easterly direction from the track.
 - 2) Next, using the stadium (335325N/353250E) as a reference point, 095 again attempted to determine direction to the target; results indicated a generally northerly direction (p.3).
 - 3) 095 was then instructed to "walk" to the target from the government dispensary in the BURJ HAMMUD district; this took 095 back towards the stadium.
 - 4) 095 next turned attention fully to a perception/description of the target structure (see summary). 003 places this somewhere in the vicinity of the AD DAWRAH district (vic 335340N/353300E).
3. (S/NF/SK) COMMENTS: This location is very near to that determined by 011's data. The description of the target building's roof, a sentry on the roof, and a nearby structure (AOL-water tower) match the information supplied by 003. ~~Unless we are dealing with collective (mass) hysteria on the part of the viewers,~~ the amount of detail and corroboration present in their data should allow for cross-cuing of other intel assets at this time.

Site is ridged low structures (AOL corrugated roof). On one structure there is a curved metal object on top (AOL water tower). Inside one structure (building 232) it is ~~very~~ and ~~smells of oil~~. The roof of this structure is ~~hard and rough~~ and has a raised "wall" around it. On the roof a man is ~~sitting~~ ~~low/crouching~~. ~~His job is to watch~~. When queried as to where Terry Waite was he pointed toward the east towards a more closed in, narrower, lower building.
